

Conversational Elicitation & Advanced Communication

This course will be divided into 3 sections, all of which are designed to increase communication effectiveness. We will focus on aspects of human behavior, psychology, and advanced conversational techniques.

 The Body Language of Communication and Deception: The participants will learn how to read body language, evaluate stressful situations and identify deceptive cues. We will also focus on increasing the effectiveness of communication by creating better rapport and more comfortable environments.
The Psychology of Communication: In this section, we will focus on how to read others In order to increase the effectiveness of communication strategies. Students will be taught how to effectively use a personality profiling inventory designed by the instructor. This inventory will allow students to utilize what

they've learned to build rapport faster and control interactions more effectively. **3. Conversational Elicitation and Elicitation Countermeasures:** students will learn conversational elicitation techniques and elicitation countermeasures to protect themselves from becoming the target of elicitation attacks. This class will focus on 10 conversational elicitation techniques and their countermeasures. Students will be given examples and time to utilize their new skills in the field.
