DESCRIPTION:

The "GREAT TO MAGNUS" workshop offers a concise and impactful Personal and Developmental Leadership Foundation course for all ranks. In a rapidly changing world, leaders must adapt to new dynamics, especially in professions like public safety, which face daily volatility, uncertainty, complexity, and ambiguity (VUCA). This workshop addresses the need for higher capacities in leadership, performance, well-being, and anti-fragility to navigate the New Normal. Suppose you seek inspiration and motivation for yourself and your personnel, improved well-being, more vital leadership, performance, psychological resilience, or enhanced mental toughness through neurobiological skills tested with over 10,000 tactical and special operators. In that case, this workshop is tailored for you. It delivers a science-based approach to human behavior, introducing the "MAGNUS OVEA" theory, and provides practical and habit-building tools tested with over 10,000 public safety and military operators.

INSTRUCTOR:

Dr. Mitch Javidi, a seasoned peak performance and human behaviorist, brings over 35 years of hands-on experience across diverse industries such as Academia, Military, Public Safety, Government, Pharma, and Technology. He is the mastermind behind "MAGNUS OVEA," a general theory of human behaviors through 11 Rings for enhancing interoperability and interconnectivity. He co-founded MAGNUSWorx in collaboration with Jeff Kingsfield. He is also the founder and the driving force behind the [National Command & Staff College](#), the Institute for Credible Leadership Development, and the Criminal Justice Commission for Credible Leadership Development. As a true entrepreneur, he is also the co-founder of [Epochal Technologies, Inc.](#) and [Power of Awareness](#). Mitch's expertise is underscored by his training at the Joint Special Operations Command (JSOC) and the US Army Special Operations Command (USASOC). His exceptional contributions have earned him distinctions,
