

Body Language, Threat Detection and De-escalation Training

Course Description: 24 hours. This class will help criminal justice officers recognize behavioral tells and body language associated with deception in a variety of applications. The topics include body language, communication mindsets, cognitive limitations, psychological aspects of deception, verbal analysis and questioning techniques.

New for 2024 De-escalation Training

The course will be conducted in a participative, lecture-style format, supported by audio-visual presentations. The instructors will engage students actively, encouraging discussion, and sharing real-life scenarios to illustrate concepts effectively. This interactive approach ensures a more engaging and practical learning experience for the participants. We will be shortening the deception section to behavioral indicators only and adding a de-escalation section. We feel given today's climate, this is a critical component to law enforcement education. **This course is FREE to attend.**

Location:

George Mason University, 10900 University Blvd., Manassas, Virginia 20110

Date: May 6th to May 8th 2025
