

TactiCop Training

D11nnMMayMate: September 17, 2019

Location: **SURVEILLANCE TECHNIQUES**

Escondido, CA.

June 2, 2025 10 AM – 5 PM

HOSTED BY : CENTRAL FLORIDA HIDTA

This one-day introduction training is designed for law enforcement officers who want to learn and who routinely use surveillance as one of their investigative techniques. The course is designed to provide the students with the knowledge and skills to successfully conduct and properly document their surveillance activities.

One of the major investigative tools used to combat crime and organized criminal activity is SURVEILLANCE! Original techniques coupled with today's technology gives law enforcement officers the ability to assist in locating, following, and dismantling criminal organizations.

The training will consist of instruction as well as practical hands-on surveillance in realistic scenarios that mimic some of the complex criminal organizations and other crimes in which surveillance is needed. The practical scenario will challenge the student to maintain their covert role while attempting to follow the suspects.

Training will include Mobile Surveillance via foot/vehicle, Safety Operational Planning, and Surveillance Responsibilities.

Students should bring: Unmarked car, ear buds/air pods, binoculars and a camera (if possible).

TactiCop Training offers a confidence building hands-on, real world, practical training experience!
