# Firearm Trafficking & Illicit Trade Arms Investigations

**Date:** September 24-25, 2025 (Tuesday-Thursday) **Time:** 8:30 am - 4:30 pm

**Deadline to register online:** August 20, 2025

Gun crime suppression tactics are often conducted in a reactive manner by seizing firearms after a violent crime has been committed. Historically, firearms are also seized after enforcement activity related to narcotic operations. While these types of seizures are important, it has become increasingly necessary to proactively target criminals involved in the illegal distribution of firearms. In-depth case law will be presented covering the various state and federal firearm law violations that can be used to proactively target criminals. It is imperative that officers have a true understanding of the elements of each firearm law offense to ensure a successful prosecution.

This two-day training course will focus on conducting controlled purchases of firearms utilizing confidential informants and undercover officers. The participants will receive information on various types of common street weapons, pricing, and possible modifications.

**Tuition Free:** However, travel costs are the responsibility of the parent agency.
