INTERMEDIATE LEVEL INTELLIGENCE - CONNECTING THE DOTS

February 9-13, 2026

**11548 West Theodore Trecker Way
West Allis, WI 53214**

Katelyn Vaughan, kvaughan@northcentralhidta.org

REGISTRATION

Registration is restricted to local, tribal, state, federal, and military law enforcement officers.

THERE IS NO COST TO ATTEND THIS COURSE.

COURSE DESCRIPTION

Enhance your investigative skills with this 5-day hands-on course, designed to build on foundational intelligence training. "Connecting the Dots" prepares investigators, analysts, and intelligence practitioners to tackle complex, multi-subject investigations involving gangs, organized crime, and covert threat groups. Learn ad-vanced techniques for assessing threats, managing data, and unraveling criminal networks across jurisdictions. This practical training includes interactive exercises and is ideal for those supporting protracted investigations, conducting criminal intelligence collection, or working with multi-agency task forces.

This course is consistent with the 2007 minimum Criminal Intelligence Training Standards for the Criminal Intel-ligence Officer, as prescribed by the International Association of Chiefs of Police.

APPROVED COURSES FOR PROFESSIONAL CERTIFICATION:

The successful completion of both the *Introduction to Intelligence for Law Enforcement* and the *Intermediate-level Intel-ligence* courses entitles the Midwest Counterdrug Training Center student to qualify for professional certification by the International Association of Law Enforcement Intelligence Analysts (IALEIA).

**FULL COURSE
DESCRIPTION**

TOPICS INCLUDED

- Integration of operational intelligence with investigative support functions
- Techniques for assessing and managing complex criminal networks
- Practical, hands-on exercises for applying learned techniques to real-world scenarios
- Criminal intelligence collection for multi-agency task forces and fusion centers
- Manual and computerized analytic techniques for handling large volumes of data
