ARTIFICIAL INTELLIGENCE FOR LAW ENFORCEMENT

JANUARY 14, 2026
1:00 pm – 2:00 pm
FREE ONLINE WEBINAR

This free one-hour webinar provides law enforcement professionals with an accessible introduction to Understanding Artificial Intelligence, Microsoft Copilot*, and Its Role in Law Enforcement.

The webinar will focus on how these tools can enhance daily investigative and administrative work. Participants will learn the fundamentals of AI, Copilot's capabilities across Microsoft applications, and practical uses in policing. The session emphasizes critical safety and privacy considerations when using AI in law enforcement environments and includes hands-on practice accessing and querying Copilot on both desktop and mobile devices.
