

# SKOPENOW

SAVE THE DATE: VIRTUAL & IN-PERSON WORKSHOP

## Building an OSINT Investigation From the Ground Up

📅 April 15, 2026

🕒 10:00 AM – 12:30 PM

📍 1800 Washington Blvd, Baltimore, MD

[REGISTER HERE!](#)

Criminal networks almost always leave digital fingerprints long before cases are built.

From social media footprints and digital identifiers to breached data, today's investigations face challenges that require rapid and defensible open-source intelligence.

Skopenow invites Baltimore & Washington DC HIDTA & partner agencies to a one-hour operational briefing focused on:

- Turning incomplete inputs into a range of associated digital leads
- Reducing time from digital lead to actionable intelligence through automation
- Discussing real-world investigative use cases for criminal activities

***Lunch will be catered by Skopenow***

### Speakers

**Francisco Gerardo**  
Director of Public Sector

**Nick Castleberry**  
Federal Solutions Engineer

### About Skopenow

Skopenow is an automated OSINT platform that reduces manual workloads while improving accuracy, reportability, and confidence. The company has over 1,500 customers around the world, including 50+ government agencies.
