

Technology Threats and Trends Against Law

Provided by: Northeast Counterdrug Training Center

Technology saturates our everyday lives. Yet, so many technologies are being developed with the specific purpose of targeting police officers or hiding criminal activity. This is a unique and eye-opening class for law enforcement personnel who want to learn more on how technologies are being used (or misused) to commit crimes, avoid or detect investigations, and to conduct counter surveillance. However, not only will this class examine and demonstrate how individuals are misusing these technologies, it will also reveal simple, inexpensive ways to mitigate their success as well as provide some investigative tips. Although dealing with technology issues, this course is instructed in a manner that both the novice and the expert will understand and appreciate. The course utilizes a combination of lecture, multimedia examples, case studies, and live demonstrations involving the attendees.
