

NY/NJ HIDTA TRAINING ALERT

training@nynjhidta.org

Enrollment Status	There is a cost of \$35.00 per student for this class. Registration Instructions are Below:
Course	Open Source Intelligence for Law Enforcement Investigations
When	May 15, 2026
Where	Live Webinar
Time	9:00AM CST- 11:00AM CST Law Enforcement Personnel Only Students are NOT required to turn on web cameras
Instructed By:	Sponsored By: NY/NJ HIDTA

COURSE DESCRIPTION: This webinar is tailored to law enforcement seeking to enhance their investigative capabilities through Open Source Intelligence (OSINT). Led by an active law enforcement instructor, participants will delve into the rapidly evolving field of OSINT, learning essential skills and knowledge to leverage publicly available data effectively. The course covers techniques for gathering, analyzing, and utilizing open source information to support investigations and operations. From locating phone numbers and addresses to identifying relatives and more, attendees will explore practical applications of OSINT in various investigative scenarios.

INSTRUCTOR: We only use active law enforcement, who are currently using these techniques in their daily roles. By doing this, it keeps the material up to date and immediately applicable for the students. The instructors use their own active cases to reinforce the techniques taught in the class. You can read all our instructor biographies on our website.

WHO SHOULD ATTEND: Officers, Detectives, SRO's, Narcotics, Vice, Crime Analysts, etc.
RESTRICTED TO LAW ENFORCEMENT PERSONNEL
