DEA OVERDOSE SURVEILLANCE EXCHANGE

Frontline forensics to
stop the spread.

FAST · TRUSTED · PROVEN

PRESENTED BY

Dr. Agnes Winokur

Laboratory Director · Drug Enforcement
Administration

28+ years experience — DEA Laboratory
Director, specializing in forensic analysis and
laboratory management — driving innovation,
fostering collaboration, and upholding the
highest scientific standards in forensic
examinations.

THE FIVE CORE PILLARS OF THE DOSE APPROACH

Evidence → Intelligence → Action → Lives Saved

Who can request **DOSE** analysis

- Law enforcement
- Medical examiners
- Toxicologists
- First responders

DOSE provides law enforcement, medical examiners, toxicologists, and first responders with the ability to request a quick turnaround time analysis on a wide range of samples, including liquids, powders, solids, and residues — for the presence of illicit drugs and respective purities when possible.

HOSTED BY:

Why reach out

- [01] Rapid scene analysis - analysis of drug samples collected from fatal drug-poisoning scenes across the United States.
- [02] Emerging-threat detection — designed to detect and identify new psychoactive substances and unknown drugs.
- [03] Deep chemical expertise — chemical profiling, structural elucidation, and geo-sourcing of illicit drugs.
- [04] Shared intelligence — critical data on drug threats shared with affected communities and jurisdictions.

48 HR

Turnaround with detailed
qualitative & quantitative
reporting.
